**BALLET-ROYAL ACADEMY OF DANCE SYLLABUS-** Our school is affiliated with the Royal Academy of Dance in London, England- a worldwide teaching body that offers a carefully constructed syllabus taught by qualified teachers. The Grades begin with preprimary for children at least 4 years old, and continue through Grade 8. We also teach the Academy's Vocational Syllabus, which is geared towards the preprofessional student aged 12 and up. Examinations are held annually. We highly recommend students to participate in examination. Examinations serve as a yardstick for teachers and parents to measure their child's improvement.

**First Steps (2.5-5.5yrs)** Early Childhood Program. This program is designed for preschool children. The structure of a classroom environment is introduced and the children learn to take simple direction from the teacher. Children gain body awareness and begin to master group work, for example, moving in a circle or working with partners. Musicality and rhythm are taught through clapping, singing and improvising to music. Creative imagery and mime are used to help the children respond to music. Basic movement themes such as; jumping, balletic runs walks, spinning and skipping are explored as an introduction to classical ballet.

**Pre Primary (5.5-6.5 yrs)** Progressing from First Steps, children now learn to work in lines and on the diagonal. Basic movement themes such as; jumping, balletic runs, walks, spinning and skipping are explored as an introduction to classical ballet. Students continue to work with partners to facilitate a sense of teamwork.

**Primary/Grade 1 ( 6-7.5 yrs)** Traveling movements learned previously are given more complexity with the addition of skips forward, backward and simple jump combinations. Expression and musical awareness are taught through free movement, mime and storytelling. Coordination and control of the body, arms, hands and head are improved. At this level students have now developed the ability to retain basic movement combinations and can now perform short dances in solo form.

**RAD Grade 2 (8-11 yrs)** This introduces students to the foundations of barre work in order to develop proper alignment and classical technique. Students continue to work on traveling steps with an introduction to grand allegro. At this level an emphasis is placed on turning, jumping, and linking steps. Introductory character work and free movement study provide students with an avenue for self expression and performance style. Students are expected to show awareness of basic technique appropriate timing and musicality. Students attend twice a week, for 2nd class attend Thurs. Gr 3

**RAD Grade 3 (8-11 yrs)** Students continue to build their vocabulary with a new set of specific exercises at the barre and in the centre. At this level an emphasis is placed on detail and artistry, therefore, increasing stamina, concentration and discipline are required. Dancers will learn to communicate expression and feeling in their movement. Character steps in the Russian style are expanded as students are now expected to show a clear understanding of stylistic and rhythmical nuances. Pre pointe shoes will be considered at this level up at the discretion of the teacher. Students attend 2 ballet classes per week, for second class attend Tues. Grade 2 This requirement is to insure the proper strengthening in preparation for pre-pointe and pointe shoes in Grade 4 level.

**RAD Grade 4- 5 (10-12yrs)** Students continue to build their vocabulary with a new set of specific exercises at the barre and in the centre. At this level an emphasis is placed on detail and artistry, therefore, increasing stamina, concentration and discipline are required. Dancers will learn to communicate expression and feeling in their movement. Character steps in the Russian style are expanded as students are now expected to show a clear understanding of stylistic and rhythmical nuances. Students MUST attend 3-4 classes per week

**About Soft-Blocks and Pointe Shoes-**Students must be a minimum of ten years old and studying ballet 3 to 4 lessons a week to start training on pointe. Students will be assessed *individually* and placed in soft-blocks for at least six months before pointe shoes. Parents and students should understand that a great deal of strength is required, and placement is at the sole discretion of instructors. The students' safety is our main concern.

**Grade 6, 7 & 8 (13 yrs & up)** Students who have progressed to preprofessional level, now have an extensive ballet vocabulary. At this level, articulate footwork and secure use of legs is crucial. class work continues to improve the dancer's spatial awareness and orientation of the body. Dancers continue to work on coordination of the whole body with the addition of fluidity of movement. Added steps include multiple pirouettes and beating jumps. Continue with pointe work. Attend 4 to 5 classes per week

**Intermediate Foundation (11-14yrs)** The vocational syllabus is the continuation of classical ballet from the grade work adding pointe work and dances. This level is designed to give the necessary training to students wishing to study seriously. Encouraging the technical requirements along with establishing artistry, musicality and feeling. Many more steps are introduced further establishing the movement and line of the dancer. Good stance and placement required for pirouettes and grand allegro. Having developed strong posture and at the discretion of the teachers, students can now begin to train enpointe. Students are required to attend 4 ballet classes per week in order to take this exam and maintain strength

**Advanced Ballet (14yrs & up)** Students at this level have a vast knowledge of classical ballet vocabulary and will have passed the above grades. Having achieved this high standard students are now working on Advanced 2 and the Solo Seal Award. Pirouettes in open positions batterie and extended combinations on pointe are now included in class work. Refining technique continues to challenge as students are now expected to perform at a professional level. As such, the endurance needed to maintain that standard requires students to attend no less than 5 classes per week.

**NOTE ABOUT EXAMS:**To progress at the appropriate rate for their level and age, students should follow these guidelines.

Students who take fewer classes will not progress through the levels at the same rate. Decisions about RAD examinations are at the discretion of instructors based on their professional opinion of each individual student's ability to achieve a **successful result.**

**TAP Program** - we offer tap as an alternate dance disciplines to be studied alone or in conjunction with classical ballet. Class attire. Leotard, tights, black tap shoes. Hair in a bun

**No Jazz Classes with be offered 2018/19 school year.**
